About

M.Tech Cyber Security student with a strong interest in Web Security, Network Security, VAPT and Digital Forensics. Familiar with cybersecurity tools such as Burp Suite, Nmap, Wireshark, Aircrack-ng, and Autopsy through academic coursework, laboratory exercises, and self-learning. Possess a good understanding of cybersecurity fundamentals, vulnerability assessment concepts, and network analysis. Eager to learn, develop practical skills, and contribute to cybersecurity projects in a professional environment.

Projects

Multi-Layer Security Algorithm (ENP) Dec 2025 – April 2026

- Designed a multi-layer authentication framework combining SHA-256, Negative Password Transformation, and AES encryption.

Smart Attendance System Jul 2025 – Aug 2025

- Developed a web-based facial recognition attendance system with role-based dashboards for Admin and Staff.
- Integrated Firebase Authentication & Firestore for secure sign-in, real-time logs, and payroll data management.

Wi-Fi Indoor Location Tracking Aug 2023 – Apr 2024

- Designed high-accuracy indoor positioning using improved WKNN algorithms with Kalman filtering.
- Built Python-Flask web interface with MySQL backend for real-time location display and analysis.

Online Rental House Sept 2022 – Jan 2023

- Created a rental platform connecting landlords and tenants with modules for admin, tenant, and landlord.
 - Implemented using Python (Flask/Django), MySQL, HTML, CSS, Bootstrap, and JavaScript.
-

Education

Cochin University of Science and Technology (CUSAT) 2024 – 2026

M.Tech, CSE (Cyber Security) CGPA: 9.14/10

KMCT College of Engineering for Women 2020 – 2024

B.Tech, Computer Science & Engineering CGPA: 7.94/10

Skills

Cybersecurity: Burp Suite, Nmap, Wireshark, Aircrack-ng, Autopsy, Cisco Packet Tracer

Programming Languages: Python, C, HTML

Databases: MySQL

Tools/Platforms: Git, Docker, Jenkins, VS Code, Android Studio

Other: Microsoft Word, Microsoft PowerPoint, Adobe Photoshop, Adobe XD, LaTeX

Internships

Cyber Forensic Intern – Kerala Police Jul 2025 – Aug 2025

- Assisted in cyber forensic investigations.
- Worked with digital forensic tools .
- Performed incident investigation activities.
- Prepared reports and documentation.

Cyber Security Intern – Techbyheart

Jun 2024 – Jul 2024

- Learned fundamentals of cybersecurity and ethical hacking.
 - Worked on vulnerability assessment exercises and security awareness activities.
 - Gained exposure to security tools and attack methodologies.
-

Certifications

- Cyber Forensic Internship - Kerala Police (07/2025–08/2025)
 - NPTEL: Cloud Computing & Distributed Systems (01/2025–03/2025)
 - Cyber Security Intern - Techbyheart (06/2024–07/2024)
 - Foundations of Security — Google (02/2024)
 - Cyber Security, AWS and Data Science (09/2023–10/2023)
 - Data Analysis Using Python (ICFOSS) (04/2023)
 - Introduction to Machine Learning (01/2023–02/2023)
 - Cyber Security and Ethical Hacking (05/2022)
-

Key Achievements

- Developed a multi-layer security framework using cryptographic techniques.
 - Built a facial recognition attendance system with secure authentication.
 - Designed a high-accuracy indoor positioning system.
 - Completed cybersecurity internships in Cyber Forensics and Cyber Security.
 - Gained hands-on experience with industry-standard security tools.
-

Languages

English (Fluent), Malayalam (Native), Hindi (Basic)
